SHOULD PASS THE TREATY

A prominent business man of this city has received a copy of a circular letter sent from the Simms Hardware Company, one of the most efficient organizations of its kind in America. The circular says business wants the ratification of the peace treaty and the commerce of the world is in suspense until the league of nations shall be confirmed. This enterprising firm is sending this circular into all parts of the United States and to all their representatives. It is a pity that they did not do this some time ago, but the action of Congress at the present time would indicate that the ratification of the peace treaty as far as America is concerned will be loaded with a heavy effect and operation of the instrument.

It seems to us that if the Republican majority in Congress possessed a broad vision and the political acumen not influenced by partisan and petty politics they would see the necessity for passing the treaty.

20TH FIELD ARTILLERY LEFT TODAY

The 20th Field Artillery which has been in camp on the Hackney Wagon lot for the past several days broke camp today and as indicated in these columns a few days ago the next place of bivouac will be Rocky Mount.

As stated previously they are on a recruiting expedition and three recruits were secured in this city which are as follows: Thomas Oxendine, who will be attached to the 20th Field Artillery, J. H. Mizelle for overseas duty and Lee Moore for cavalry duty on the border.

The members of the organization extend their deepest appreciation for the attentions and courtesies shown them in our city. The officers inform us that Wilson is one of the best towns they have ever seen and they desire to extend their thanks through the columns of the Times to the people of Wilson for the hospitality shown them while here.

They expect to return to Wilson about the 29th of December.
